EXPERIENCE

Founder, Web Developer

LouTech Software *Web development agency*

Built robust data-driven web-based applications for clients and managed the underlying infrastructure.

📅 July 2017 – Ongoing

📍 Paris, FR

Software Developer

ON Animations Studio *CG movie production studio*

Built web-based production management tools integrated with the in-house pipeline.

📅 September 2016 – June 2017

📍 Montreal, CA

Full Stack Web Developer, Data Scientist

DBF Automobiles *Multi-city car dealer*

From the raw data of the salesmen activity (sales, offers, customer contacts), designed a web application to visualize this data, in real time.

📅 May 2015 – July 2016

📍 Bordeaux, FR

Mobile Developer

Wordsense *E-commerce tools development startup*

Implemented the mobile front-end of an iPhone game that uses financial market trading principals for betting on trending news events.

📅 May 2013 – July 2013

📍 Paris, FR

EDUCATION

🎓 B.Eng. in Software Engineering

McGill University, Faculty of Engineering

📅 September 2011 – May 2016

📍 Montreal, CA

CERTIFICATIONS

AWS Certified Solutions Architect - Associate
