Software engineer with a special fondness for serverless architectures and software-defined networks. 3+ years of experience developing web-based applications in France and Canada. Looking for opportunities in cloud systems development.

EXPERIENCE

Founder, Web Developer

LouTech Software   *Web development agency*

Built robust data-driven web-based applications for clients and managed the underlying infrastructure.

📅 July 2017 – Ongoing   📍 Paris, FR

Software Developer

ON Animations Studio   *CG movie production studio*

Built web-based production management tools integrated with the in-house pipeline.

📅 September 2016 – June 2017   📍 Montreal, CA

Full Stack Web Developer, Data Scientist

DBF Automobiles   *Multi-city car dealer*

From the raw data of the salesmen activity (sales, offers, customer contacts), designed a web application to visualize this data, in real time.

📅 May 2015 – July 2016   📍 Bordeaux, FR

Mobile Developer

Wordsense   *E-commerce tools development startup*

Implemented the mobile front-end of an iPhone game that uses financial market trading principals for betting on trending news events.

📅 May 2013 – July 2013   📍 Paris, FR

EDUCATION

🎓 B.Eng. in Software Engineering

McGill University, Faculty of Engineering

📅 September 2011 – May 2016   📍 Montreal, CA

CERTIFICATIONS

AWS Certified Solutions Architect - Associate

📅 June 2018
